SUMMARY

As a computer science professional, I possess extensive expertise in Web development, specializing in React.js, and App development using React Native. I have integrated machine learning techniques into web and mobile applications, enabling intelligent decision-making and predictive capabilities. With a strong foundation in computer science and a proven track record in leveraging cutting-edge technologies, I am well-prepared to contribute to innovative and impactful projects at the intersection of software development and machine learning.

EXPERIENCE

Development
Freelancing   **June 2022 -February 2024, pakistan**
· Responsive UIs w/HTML, CSS, JS || Custom client solutions || React, Node, React.js apps.
· Tools: Visual Studio Code, Sublime Text || Version Control via Git.

React Native Developer
Meta Software   **June 2023 - September 2023, Mainwali,Pakistan**
· Software Intern @ Meta (App Development w/React Native).
· Project w/engineer oversight || Collaborated w/enginners || Problem-solving, debugging.
· Interactive, responsive UIs || Coding comps, pubs, exp.

PROJECTS

Final Year Project FYP SP20
Comsats University Islamabad · https://github.com/shahidiqbalofficial/SP20-FYP.git · February 2023 - January 2024
· The E-Health app system provides users with convenient and personalized access to a variety of healthcare services, including symptom-based disease prediction models for diabetes and heart disease. The app also provides users with information on diet, health, exercise, first aid, emergencies, and medicine tabs to help them make informed decisions about their health and well-being.

Portfolio
practice · https://github.com/shahidiqbalofficial/Portfolio.git · June 2023 - July 2023

Library Management System
Comsats University Islamabad · https://github.com/shahidiqbalofficial/Library-management-system · July 2022 - November 2022

Blood Donation
Comsats University Islamabad · https://github.com/shahidiqbalofficial/Blood-Donation-Project · March 2022 - June 2022

Cricket Record Management System
Comsats University Islamabad · https://github.com/shahidiqbalofficial/Cricket-record-management-system · July 2021 - December 2021

COURSEWORK

React.js
Youtube, Different Channels · 2023 · Web Development

Front End
Youtube, Different Channels · 2022 · Html, CSS, Javascript

React Native
Unversity, Youtube, Different Channels · 2022 · App Development

Machine Learning
Unversity, Youtube, Different Channels · 2022 · Prediction/Recommendation Models

INVOLVEMENT

Society Member
Comsats University Islamabad · Softech Society · September 2022 - December 2023
· Organized and coordinated events focused on various programming languages, coding competitions, and technology-related activities. Demonstrated leadership and teamwork skills by taking on responsibilities, fostering a vibrant tech community within the university. Continuous learning and skill development through participation in workshops.

SKILLS

Front End: Html,CSS, Javascript || Web Development: React.js || App Development: React Native

Machine Learning: Anaconda, Streamlet || DataBase: SQL, Firebase
